Professional Summary

Results-oriented IT Graduate and Software Engineer with dual expertise in **Full-Stack Development** and **Quality Assurance (QA)**. Proven track record in building AI-powered applications and executing rigorous software testing cycles. Deep understanding of the **Software Development Lifecycle (SDLC)** and **STLC**. Adept at using Python and Selenium to automate workflows, reduce bugs, and enhance user experience. Seeking a challenging role to leverage skills in automation, web development, and cloud technologies.

Core Skills

Programming Python (Core/Advanced), JavaScript (ES6+), PHP, SQL, Java (Basics)
Web Tech React.js, Angular, Flask, Bootstrap, HTML5, CSS3, RESTful APIs, JSON
Testing & QA Selenium WebDriver, JUnit, Manual Testing, Automated Testing, API Testing, Regression Testing, Smoke/Sanity Testing, Black Box & White Box Testing
Databases MySQL, SQL, PostgreSQL
Tools Git, GitHub, Docker, AWS (EC2/S3 Basics), Postman (API Testing), JIRA, VS Code
Soft Skills Agile/Scrum Methodology, Problem Solving, Team Collaboration, Technical Documentation

Professional Experience

Nov 2024 – **Software Testing Intern**, *Besant Technology*, Chennai/Remote
Jan 2025

- **Test Execution:** Designed, documented, and executed over **200+ test cases** for web applications, ensuring 100% requirements coverage.
- **Automation:** Developed and maintained automated scripts using **Selenium WebDriver** and **JUnit**, reducing regression testing time by approximately **30%**.
- **Defect Management:** Identified, tracked, and reported critical UI/UX bugs using bug tracking tools; collaborated with the development team to verify fixes and close **50+ defects**.
- **Agile Collaboration:** Participated in daily stand-ups and sprint planning sessions, contributing to a **20% improvement** in sprint delivery timelines.
- **Quality Assurance:** Performed rigorous functional, integration, and system testing to ensure zero-defect delivery before production release.

Projects

- 2024 **AI-Based Real-Time Chatbot Assistant**, *Python, NLP, APIs*
- Architected a voice-activated assistant capable of **real-time data retrieval** and multilingual interaction.
 - Seamlessly integrated 5+ external APIs (Groq, Google, HuggingFace, OpenWeather, NewsAPI) to provide dynamic responses.
 - Implemented **Speech-to-Text (STT)** and Text-to-Speech (TTS) pipelines, improving accessibility for diverse user groups.
 - **Repository:** <https://github.com/prajwalkukade01/AI-Chatbot>
- 2023 **Medical Chatbot**, *Python, Flask, PyTorch*
- Developed an intelligent healthcare chatbot using **Natural Language Processing (NLP)** techniques with NLTK and PyTorch.
 - Trained a custom Deep Learning model on a medical dataset using **Scikit-learn** and **Pandas** to accurately diagnose symptoms based on user input.
 - Created a responsive web interface using HTML/CSS/JS, ensuring cross-device compatibility.
- 2023 **Hospital Management System**, *PHP, MySQL, Bootstrap*
- Engineered a comprehensive Full-Stack application to digitize hospital operations.
 - Designed a normalized **MySQL database schema** to handle patient records, appointments, and doctor schedules securely.
 - Implemented **Role-Based Access Control (RBAC)** for admins, doctors, and patients.
 - **Repository:** <https://github.com/prajwalkukade01/Hospital-Management-System-master>

Education

- 2020–2024 **B.E. Information Technology**, *Sant Gadge Baba Amravati University, Amravati*, GPA: 8.0/10.0
- 2019 **H.S.C (Science)**, *Maharashtra State Board, Pune*, 54.7%

Certifications & Achievements

- **Certified in Software Testing:** Demonstrated proficiency in Manual and Automation testing concepts.
- **Open Source Contributor:** Active participant in GitHub community, maintaining repositories for AI and Web Development projects.
- **Hackathons:** Participated in college-level coding hackathons, solving complex algorithmic problems under time constraints.
